

FASHION'S FAVOURITE FRUITS

Move over florals. It's time to relish a sweet and sour summer with refreshing fruit prints

Nekita Narang

The fruit print trend has made a delicious comeback this summer. Cheery, colourful and funky fruit designs add a touch of instant freshness to our look. Fruit prints have been popping up on global ramp with brands such as Altuzarra, Stella McCartney, Dolce and Gabbana, and Gucci presenting their quirky takes on fruits. The popular motifs this season are invigorating lemons, sweet and sour pineapples, juicy watermelons and sweet berries.

We suggest going for subtle prints for that summer happy, fruity vibe without looking like a walking-taking wallpaper. Here's some quick inspiration to beat boredom and make summer days fun and refreshing.

MELON FUN

When you are one in a melon, you can't go for what's predictable and routine. Wear your favourite fruit on your shorts this summer. Pair these cute watermelon shorts with a graphic tee and basic flats. Add fun to your look with

quirky earrings and a fruity tote bag. For an additional splash of colour, wear a printed scarf with your outfit or tie it around your bag. Wear your hair in pigtails and you are good to go.

PINEAPPLE DAPPLE

Go all summery with this pineapple print tank top. Team it up with basic denim shorts. Get your beach game on with embellished flip flops. Keep your makeup minimal and style your hair in playful pigtail buns to complete your look.

NOTHING TO MULL OVER

Let fashion be lighthearted and freewheeling this summer. Mulberries won't let you down this season. Flaunt your summer style in this mulberry plant print top. Go for your trusted denim shorts. Add subtle bling with embellished earrings and sandals. Add some more colour with these blue tinted sunglasses. Go for the trendy boxer braids with a light lip colour and live summer happy.

LEMONY SURPRISE

When life gives you lemons, you put them on your dress! This lemon printed ruffled dress is perfect for your summer wardrobe. The bright yellow colour paired with this flowy silhouette is sure to make heads turn. Complete the look with a simple yet chic choker and a pair of gorgeous nude heels. Ditch heavy foundation and go for a light tinted sunscreen instead. Keep your makeup restrained with subtle blush and nude lips. Finish the look with your trusted top knot.

BERRY TRENDY

It's the berry season this summer and you don't want to miss out! Style this cute strawberry top with the trending denim skirt dungarees. Jazz up the outfit with a few strawberry fashion patches. Add an element of fun to your outfit with a fruity embellished bag. Experiment a little with your hair and tie them up in an adorable bow bun. Add some pink to your cheeks and gloss to your lips and you're sorted. Don't forget to wear a pair of tinted sunglasses to tie your whole look together!
